Old Farm Surgery operates a smoke-free policy and the building and car park are no smoking areas.

Patients are requested not to use mobile phones within the practice building.

Registered Manager and Main contact: Dr Mark Graham Thompson
Contact: 01803 556403

Statement of Purpose

Aims and Objectives

This medical practice consists of dedicated and professional employees. We aim to provide medical care and treatment of consistently high quality for all patients and only provide services that meet patients' needs and wishes. We aim to make care and treatment as comfortable as possible.

The purpose of Old Farm Surgery is the management of patients who are ill or believe themselves to be ill, with conditions from which recovery is generally expected, for the duration of that condition, including relevant health promotion advice and referral as appropriate, reflecting patient choice wherever practicable. It also includes the general management of patients who are terminally ill and management of chronic disease in the manner determined by the practice, in discussion with the patient and their relatives or carers as appropriate.

The Practice's priority is to provide the highest standard of clinical care to patients registered with the Practice, ensuring we work collaboratively with other healthcare providers and support organisations, to enable more of our patients to be treated in a primary care setting, closer to home.

We aim:

- To understand the expectations of our patients
- To motivate and invest in our team and acknowledge their value
- To encourage all team members to participate in achieving our aims and objectives
- To clearly set and monitor targets in all areas

Our objectives

The objectives of the practice are to deliver a service of high standard in line with professional standards and:

- To be accountable for individual and team performance
- To support each other in achieving patient expectations
- To maintain the highest professional and ethical standards
- To rapidly respond to the needs of our team and our patients
- To ensure our staff are trained and competent through investment and personal development
- To ensure that patients are treated with honesty and integrity, in complete confidence and with the utmost discretion

Consultations

All consultations are carried out with patients (and their families/carers if appropriate), by qualified personnel in the privacy of the consultation room. Records of all consultations and treatments are kept electronically within the patients notes.

All patients wishing to register with Old Farm Surgery will be asked to complete the new patient questionnaire which informs the practice of past health and present lifestyle. This enables us to better meet a patient's medical needs until medical notes arrive from the previous surgery.

We care about providing the right treatment to patients, so treatment and procedures are only carried out after fully discussing the benefits and risks with the patient. Patients have the right to ask questions regarding their care at any time.

Patients have the right to make their own decisions regarding medical treatment and care. This practice operates a consent policy, which will be issued on request at any time for the patient to read and understand prior to proceeding with any treatment. Consent to treatment must always be given freely and voluntarily by a person capable of making decisions regarding the treatment.

The privacy and dignity of patients is respected at all times. If a chaperone is required during a consultation or examination, this will clearly be recorded in the patient notes.

The Practice is committed to developing and maintaining a safe and secure environment, for its patients, staff and visitors and has a duty to take all reasonable steps to protect and support its staff.

Violent and abusive behaviour includes bullying and or harassment of any description. Violent or abusive behaviour by patients, visitors or staff is not tolerated and decisive action will be taken to protect staff, patients and visitors.

Appointments

All patients are registered with the practice, rather than with an individual doctor, however if a patient wishes to see a particular doctor we will do our best to accommodate that wish, but where there is limited appointment availability, it may be more appropriate to see the next available clinician.

Home visits are available for those patients who are too unwell to come to the surgery, for example if housebound, too unwell, disabled or frail. Home visits for reasons of convenience or transport will be declined.

**Live well,
feel better**
